EDUCATION

2020 - 2024

MOHAMED SATHAK A.J COLLEGE OF ENGINEERING

- B.E
- Electronics And Communication Engineering
- CGPA: 8.1

TECHNICAL SKILLS

- Java Script
- NodeJS
- ExpressJS
- NestJS
- MongoDB
- SQL/PLSQL
- HTML & CSS
- TypeScript
- Git & Github
- Supabase
- REST API Design
- HapiJS

LANGUAGES

- Tamil: Fluent
- English: Fluent

PROFILE SUMMARY

Enthusiastic backend developer with hands-on experience in building RESTful APIs, database management, and backend system architecture. Proficient in Node.js, Express.js, MongoDB, and SQL, with a strong focus on API development, authentication, and performance optimization. Passionate about solving complex problems and delivering scalable solutions. Seeking an opportunity to apply my skills in a dynamic team environment, contribute to impactful projects, and continuously grow by learning emerging technologies and best practices.

WORK EXPERIENCE

DoodleBlue Innovations

Software Developer

06/2024 - PRESENT

- Built and maintained scalable RESTful APIs across multiple projects using Node.js, Express.js, NestJS, and Hapi.js..
- Integrated backend services with frontend interfaces through well-defined endpoints.
- Worked closely with DevOps teams to support environment configuration, API deployments, and version control workflows using Git.

PROJECTS

BridgePort (10/2024 - 02/2025)

- Developed and maintained RESTful APIs for CMS and web backend systems, enabling seamless data flow between frontend applications and backend services.
- Implemented secure authentication and authorization protocols for API endpoints, ensuring data integrity and compliance with financial industry standards.
- Optimized database queries and API response times, resulting in improved system performance and enhanced user experience for internal and external stakeholders.

Daikin (02/2025 - Present)

- Developed and maintained RESTful APIs for the Daikin project, covering Vendor, Business, Finance, and Admin themes, ensuring smooth backend operations.
- Implemented business logic for most modules with data validation, authentication, and authorization, enhancing security and reliability.
- Optimized API performance and database queries, reducing response times and improving system scalability for a better user experience.
